TALK OVER OLD WAR TIMES.

Confederate Veterans in Texas Ad-

ressed by Gen. Gordon.

Houston, Tex., May 23.—Rain marred the pleasures of the first day of the Confederate Veterans' reunion.

There were 8,000 people in the auditorium and as many more outside unable to gain admittance. When General Gordon rose to speak the bank struck up "Dixie," but its strains could not be heard, so great was the din raised by the vocal demonstration given the beloved chieftain. General Gordon, when quiet had been partially restored, delivered his address. It was in a happy vein and congratulated the people of the South on their acceptance of the verdict of the war and their heroic recovery from its effects.

General S. D. Lee, as chairman of the historical committee, read a report, which, among other things, said:

The true cause of the war between the states was the dignified withdrawal of the southern states from the union to avoid the continued breaches of that domestic tranquility guaranteed but not consummated by the constitution, and not the high moral purport of the North to destroy slavery, which followed incidentally as a war measure.

As to the war itself, and the results of fough tHwbnDa 9Pqlrsc L.Y ctotot the war, the children of the future would be astonished that a people fought so hard and so long with so little to fight for, judging by what they gather from the histories now in use, prepared by writers from the North. They are utterly destitute of information as to events leading to the war. Their account of the number engaged, courage displayed, sacrifices endured, hardships encountered, and barbarity practiced upon such a defenseless people, whose arms-bearing population was in the army, are incorrect in every way.

We cannot too strongly urge upon our people the great importance of avoiding as far as possible the purchasing and disseminating of books and literature which are unkind and unfair to the South, which belittle our achievements, impugn our motives, and malign the character of our illustrious leaders.

In the evening Miss Winnie Davis, the "Daughter of the Confederacy," was introduced. A wild shout went up that fairly made the enormous building tremble. Hats were flying in the air, gray-haired men were cheering and yelling, completely drowning the music made by the band, which was playing the "Bonnie Blue Flag."

At the conclusion of the ovation the crowd dispersed and Miss Davis was driven to the residence of Judge Masterson, whose guest she is.

07 YEARS' HISTORY OF GOLD AND SILVER

THE LEGISLATION AS TO COIN-
AGE FROM 1786 TO 1893.

Now That Janesville and Rock County are Deeply Interested in the Money Question The Various Changes Made in a Century are Of Much Interest.

Now that many Janesville and Rock county people are discussing the money question pro and con the history of United States legislation in the matter of gold and silver currency from the first act of congress in 1786 to the last in 1893 is of interest.

In 1786 congress adopted the plan of a national coinage. Gold coinage. The eagle, \$10, containing 264 grains of fine gold; the half-eagle in proportion.

Silver coinage. The dollar containing 275 grains of pure silver, half dollar, dime and double dime in proportion.

In 1792 a code of laws was enacted under which, with slight amendments the coinage was executed for forty-two years.

Gold coinage. The eagle to weigh 270 and 11 13 grains, 22 carats fine; the half and quarter-eagle in the same proportion.

Silver. The dollar of 100 cents to weigh 416 grains, half dollar, quarter and tenth in same proportion. (It will be seen that under this act both gold and silver coins were increased in weight.)

1834. The weight of the eagle was reduced to 258 grains, parts in proportion. Silver unchanged.

1837. The silver dollar was reduced to 412 grains, parts in proportion. Gold unchanged.

The Change of 1838.

In 1838 an important change was made in the silver coinage. Pre-existing laws have made gold and silver coins, except the three-cent piece, a legal tender for any amount. At the ratio of 16 to 1 our silver coinage was undervalued, and in accordance with the Gresham law, was either melted down or largely exported.

To remedy this, the weight of the half dollar was reduced from 206 1/2 grains to 192 grains, and the smaller coins in proportion, thus preventing their exportation. These were made a legal tender only for sums not exceeding \$5.

Another important change was made by this act; the mint ceased coining silver for individuals—that is stopped the free coinage of silver—but purchased silver at the market price and made the coins for government account. This is the same policy that was adopted in England in 1819.

In 1843 the Spanish pillar dollars and the dollars of Mexico, etc., of not less than .878 in fineness and 415 grains in weight were made legal tender at 100 cents each. And the five-franc pieces of France, .900 in fineness and .384 grains in weight, at 93 cents each.

In 1873 the following law was enacted. The gold coins shall be a gold dollar, which at the standard weight of 25.8 grains, .9 fine shall be the unit of value in the United States, other gold coins in the same ratio.

The Trade Dollar. The silver coins. The trade dollar, 420 grains, the fractional silver coinage the same as in 1853. No provision was made for the coinage of the 412 1/2 grain silver dollar. The trade dollar was not intended for circulation in the United States, but for the purposes of trade with China and Japan.

In 1878 we now come to the celebrated Bland bill, in which it was enacted that there shall be coined at the several mints of the United States silver dollars of the weight of 412 1/2 grains, which shall be legal tender for all debts except when expressly stipulated in the contracts. Nor were they to be used in payment of gold certificates. It also provides for the purchase of a sum not less than two million or more than four million of silver monthly, this to be coined, any gain or seigniorage to be made into the treasury. The holder of this coin was authorized to deposit any sums not less than \$10 with the secretary of the treasury and receive certificates, which shall be received for taxes and all public dues. This act also instructs the president to invite other nations to conference to adopt some common ratio between gold and silver. This act was vetoed by President Hayes but was passed over his veto.

The Act of 1891.

The act of 1890 directs the secretary of the treasury to purchase silver bullion to the amount of four million five hundred thousand ounces, or so much as may be offered in each

month, and to issue in payment for such purposes, treasury notes to be prepared by the secretary, of such denomination—not less than one dollar, nor more than one thousand as he may prescribe. These notes shall be redeemable in coin on demand in coin, shall be legal tender in payment of all debts, public and private, except when otherwise stipulated in the contract, shall be receivable for customs, taxes and all public dues. Upon demand of the holder of any of these notes, the secretary shall redeem such in gold and silver coin at his discretion, it being the established policy of the United States to maintain the two metals on a parity with each other on the present legal ratio, or such ratio as may be provided by law.

In 1893 an act repealing so much of the act of 1890 as directs the secretary of the treasury to purchase silver bullion.

BATES IS FOR HONEST MONEY
Beloit Attorney Denies That He Wants Free Silver.

The Beloit Daily News announced that J. W. Bates was in favor of free silver and Mr. Bates replied with this letter to the Free Press.

TO THE EDITOR FREE PRESS: The News of this morning says: "Attorney J. W. Bates is another of Beloit's staunch supporters of free coinage of silver at the ratio of 16 to 1."

"He informs the News that it is his opinion that 99 out of every 100 who have studied the question are in favor of free silver."

The reporter of the News misunderstood me yesterday in my talk with Hon. Clinton Babbitt, ex-member of congress. I took the position that we should have free coinage at the ratio of 8 to 1. In the hurry and turmoil of circus day I did not have time to fully state my position.

Permit me through your columns to set myself right and offer a few reasons why I and everyone should be in favor of the plan of the News:

1st. I want money. We all do.

2d. I am in debt. So are many others.

3d. I want cheap money to pay my debts. Who don't?

4th. The free silverites offer us a plan whereby for every fifty cents of their money we can pay a hundred cents of debts we owe. Isn't that nice?

5th. I go further than the News. I want the ratio to be 8 to 1 not 16 to 1, for if one ounce of silver will now only buy five cigars, and we adopt the News ratio of 16 to 1, I can buy ten cigars, but make it 8 to 1 and I can get twenty cigars.

6th. Perhaps if we only start the News' plan going and first get a ratio of 16 to 1, we can educate the people to adopt the 8 to 1, and then it will not be long before we can organize a free copper party, which will be a still further advance, because it will make money far cheaper and more plenty.

7th. The stamping by the government on fifty cents worth of silver "This is a Dollar" makes it a dollar, so if some one will organize a free copper party we will have the government stamp ten cents worth of copper "This is a Dollar," and then some one else will start my idea of a party on this platform: Let the poor man gather oak leaves and have our government stamp each one "This is a Dollar," and we all can have money and pay our debts and have plenty left.

J. W. BATES.
P. S.—Another idea just strikes me. What will that other fellow who now owes me settle his debt to me with if we have flat money, or free coinage of oak leaves, or free copper, or free silver?

I guess, Mr. Editor, I will withdraw from all these new parties and stick to the old party of honest money, and try to earn an honest dollar to pay the honest dollar I owe, and hope the other fellow will do the same for me.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed. I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure C. D. Stevens.

NEWS OF THE WHOLE STATE

At a meeting of the common council at Elroy an ordinance was passed making it unlawful for children under 16 years of age to be on the streets after 9 o'clock p. m., without having some good and lawful excuse or the permission of their parents. A fine of not less than \$1, nor more than \$5 is imposed for violations, and the marshal has instructions to strictly enforce the law.

The Wisconsin Home Missionary society of the Congregational church of the state, which hitherto has had care only of the churches of the southern half of the state, is making plans to extend its work throughout the whole state, thus making home missions self-supporting, a new step in advance.

NEW LADIES' LODGE FORMED LAST NIGHT

JANESVILLE CHAPTER, EASTERN STAR IS ORGANIZED.

Seventy Charter Members are Already Enrolled and the Lodge Will Be Given a Number When the Charter Is Issued—Mrs. Lovejoy's Reception—Other Social Notes.

Janesville Chapter, Eastern Star, is the name given to the new organization formed last evening at the meeting of the Masons and their wives in Masonic hall. There were seventy members, including a number of ladies, who joined the new chapter as charter members, after which, Mrs. C. E. Sherwood was elected matron; Mrs. Frank H. Baack assistant matron, and Frank H. Baack patron. While the Eastern Star is a new organization to the Masonic fraternity in Janesville, it has been flourishing in other western cities for some time, and is thoroughly established in the eastern cities. It is a degree in Masonry to which the wives and daughters of Masons are admitted, and is of a social character. In fact, Eastern Star of Masonry is substantially to that order what the Daughters of Rebekah is to the Odd Fellows. It is claimed that the new chapter will flourish in Janesville, as the list of charter members show that both the blue lodges are earnest workers in the order and determined to make to chapter a success here. A charter will be applied for, and when granted the number of the lodge or chapter will be given.

Mrs. Lovejoy's Reception.

A reception that was as enjoyable as it was novel was given by Mrs. A. P. Lovejoy last evening in honor of her guest, Miss Evalena Chapell of Boston. Refreshments were served at 6 o'clock and a season of social enjoyment followed, the features being an art gallery, supplied with the works of the old masters and a Chicago auction conducted by Miss E. L. Williams. Both were novel ideas and produced much merriment. Miss Marie Ruger was the most successful in guessing the titles of the exhibits and was awarded the ladies souvenir while A. J. Harris proved to be the best art critic among the gentlemen. A peep at the city from the observatory on the roof of the home of the hostess preceded the leave taking and the guests dispersed for their homes all agreeing that they had spent a delightful evening. Among them were:

Mr. and Mrs. F. C. Stevens, Misses—Jennie Rowe, Marion Ruger, Elizabeth Norcross, Eloise Palmer, Mae Kostwick, E. L. Williams, Messrs—C. P. Beers, John V. Norcross, A. J. Harris, Frank H. Jackman, S. M. Smith, H. A. Ford, M. P. Mount, Al. Schaller, John Barlass, Morris.

Miss Owen Entertains.

Miss Harriet Owen, daughter of M. J. and Mrs. E. J. Owen, entertained a party of friends in a charming manner last evening. Music and games were the chief features and Miss Owen's hospitality was very much enjoyed. The guests were:

Genevieve Wilson, Edith Echlin, Ada Cressett, Emma Rowe, Margery Winder, Vessie Hayner, Maud Nicholson, Bessie Graham, Dottie Baker, Nellie Krumpholtz.

Royal Neighbors at a Dance.

Janesville's new secret society for ladies, the Royal Neighbors of America, gave a very pleasant social dancing party at Liberty hall last evening, and passed a few hours very agreeably. Tuckwood's orchestra furnished the music; ice cream and cake were served and the revelry did not end until midnight.

COMMENCING this morning we will sell you any lady's shoe in the house for \$2. The like was never known in this city. Just think, a \$5, \$6 or \$7 shoes for \$2. Winslow & Lowell.

Just half of factory price, is the way we are selling; no half of a retail price. Becker & Woodruff.

A DAY'S NEWS IN THE TOWN.

SPECIAL attention is called to our one day sale, Saturday. Of any shoe in our store at \$3 a pair, we propose to give you a chance to buy a \$4 shoe, a \$5 shoe, any shoe we have at \$3 dollars. You have paid us \$3.50, \$4 and \$5 for shoes many a time, come in Saturday and get a duplicate pair for \$3. We want to sell a thousand dollars worth of goods Saturday, and want \$3 of you to help us out. Don't forget the great day. Brown Bros. & Lincoln.

We intend to have this gigantic stock cleaned out about next October when "the leaves begin to fall and the summer days are gone" and then you'll wish you had prepared your feet for the winter, for we tell you candidly that no difference how cheap shoes may be offered to you in the town, none are selling them any cheaper than we and none are giving as good goods. We give you the best there is at 50 cents on the dollar. Becker & Woodruff.

THE opportunities for economical buyers were never equaled in the history of our city. Never before were such goods thrown on our market at the prices we are making. Don't confuse our sale with any of the old stock now being sold. The old goods may look all right when you buy them but when it comes to wear your experience will tell you that they were dear. Brown Bros. & Lincoln.

AMERICANIZED Encyclopedia Britannica, containing four thousand more subjects than the English edition. A library of itself, in ten large octavo volumes, endorsed by all who have consulted it. Price of ten volumes cloth, \$18.00; in law sheep \$22.00. Call and examine it at Sutherland's book store.

We are not in a position to tell how others' business is, but we hope it is as good as ours. Never in our lifetime have we had as many customers in our store in a single day as are here daily now. People like to get bargains; and when they do get them they like to know that they are bargains. We've never been guilty of deceiving a single customer, and we won't commence now. We repeat it: the best shoes on earth 50 cents on the dollar. Becker & Woodruff.

It's buggies we are selling at our repository on River and Pleasant street and good ones we will assure you. Buggies we can talk about, and brag about, and when we sell one we are not shaking in our boots, fearing in six months time that it will come back on us. The Henney goods need no introduction or recommendation. They speak for themselves. F. A. Taylor.

FALLING angels could not suffer greater humiliation than do Banister's patent leather shoes when we sacrifice them on our altar at the unheard of value of \$1.50 a pair. Bull beef at a penny a pound would be no comparison in cheapness. The sizes are 5, 5 1/2, 6 and 6 1/2. We have an overstock, and you have the benefit of our load. North had \$5 to \$6 for every pair. No wonder we sold thirty dollars' worth of shoes in a single day. Brown Bros. & Lincoln.

THE eyes of the entire city are upon us, especially those of our jealous competitors, and well they may be for we're cutting prices in a way never before cut in this town. Spring overcoats that actually cost wholesale \$10 to \$18 we are making a run on at \$6. 75 of them. Frank Baack.

It's a pleasure to do a business like we are doing daily. We know the people appreciate our efforts, because they tell us they do; and we are returning the compliment by giving them the best shoes there are made at 50 cents on the dollar. A shoe that costs \$1.60 at the factory we sell for 80 cents. Becker & Woodruff.

We sold some spring overcoats yesterday at \$6 each. Will sell some more today. They are beauties. This is only one-third price on some of them and a trifle more than half price on the poorest. Frank Baack.

O, no, we are not going out of the shoe business this week. We are buying new goods every day. Just gave an order today for 700 pair from one of the best shoe houses in the world. Winslow & Lowell.

COME in and look at that \$30.00 stock of shoes. It's a pleasure, now—a days just to gaze upon so many goods. We give you an assortment. Can satisfy any and everybody and it only requires one-half price to pay the bill. Becker & Woodruff.

We carry a first class line of horse clothing, and when you come down to buy a Henney, if you wish we can fit you out with a good harness, lap robes or whip. F. A. Taylor.

THE new settees recently placed in the court house park were well patronized this afternoon, they being favorites among park frequenters.

LURID OATHS GREET GEN. DOE'S RULING

JANESVILLE SOLDIER A VERY BUSY MAN THESE DAYS.

Ordered Fox River Mill Owners To Cease Using Water and They Swore—Then He Told Them They Could Use Some And the Steamer Captains Cursed—Clerks are Mad.

That great and good soldier General Joseph Bodwell Doe, of Janesville, Wis., is again in evidence and the air all along the Fox river is charged with blasphemy in consequence.

Some time ago the steamboat men complained that the mill owners were using the water in the river too lavishly and that navigation would soon be a thing of the past. Then the war department ordered the mill owners to shut down and they began to swear.

Then protests reached Washington and trouble began to brew. Then Assistant Secretary of War Doe relented somewhat in compelling the holding of the water until a navigable stage of water had been secured, for telegrams begun to pour in on him. Finally he telegraphed Senator Kennedy at Appleton, asking for a statement as to the number of persons out of employment on account of the shutting down of the mills, and received an answer, saying that several thousand persons were out of work. This telegram caused Gen. Doe to wire the government engineers in charge of the Fox canal to permit the mill men at Appleton to draw one half the water they were formerly drawing from the canal and to run their mills to that effect.

Whether this privilege will be extended to the other mill owners along the canal is not stated, but Gen. Doe insists that the drawing of water from the canal so as to make the water level as low as it was when the order for the enforcement of the regulations was promulgated will not be permitted. The war department has received information that the water is rising gradually at the Menasha dam, and this fact coupled with the condition of the unemployed, induced Gen. Doe to send an order permitting a use of half a supply of water.

Now the Oshkosh steamboat and sawmill men are doing the swearing, and between the two the "giral" is having quite a time of it.

While you are speaking of General Doe, the following dispatch to the Chicago Times-Herald from Washington may also be of interest: "Clerks in the engineer bureau of the war department who left their desks yesterday to watch a circus parade were surprised today to discover that the time they were idle was deducted from their annual two weeks' leave. This is an example of the discipline in force in the war department. The clerks exonerate the army officers in charge from such a petty piece of work, and lay it at the door of the civil administration of the office."

WHAT WILL THEY DO WITH IT?

The United States treasury deficit for the fiscal year will be not less than \$60,000,000. Last year it was \$70,000,000. In the meantime the national debt is holding its own with no prospect of a decrease for some time to come. These are stubborn figures that confront the democratic party, and the question very naturally arises, "What will they do with it?"

It is fortunate for the country that the responsibility of answering this perplexing question is not left to democracy. If it was, bond issues would be repeated indefinitely and in less than ten years the nation would be burdened with a debt from which they would not recover in a generation. "Incompetency" is stamped on every act of national legislation, since the party came into power, caring more for the power, success and prosperity of the old world, than for home interests. Every inducement has been offered to invade our markets and possess our heritage. The right to furnish home gold to float our bond issue, when it was known that five times the amount required was in the hands of people who would have cheerfully invested it in bonds of small denomination at a low rate of interest, was transferred to foreigners, who have been rewarded with a round \$10,000,000 bond.

Our foreign policy has been weak and vacillating, and our sister republics have been disgusted. If there is anything about the democratic party to commend it to public favor, after two years' experience, it does not appear on the surface. There are several questions, besides the national debt, that will be left as a legacy of folly and incompetency.

JOURNAL CUFFS THE NEWS

The democratic Milwaukee Journal holds the democratic Beloit News up by the ear and cuffs it in this wise:

"The Beloit News puts itself in a laughable predicament by alluding to Edward Atkinson, the celebrated economist and statistician, as a contributor to another city paper who 'uses rant' for argument, etc. It imagined him some farmer who longed for fame as a financier and ridiculed the articles over his name because of his supposed obscurity. Syndicate writers face many awful 'perils' in these days of free silver contention."

To honest men of all parties; to earnest men of all creeds; to every patriotic citizen of these United States; this book is dedicated by the author, Stanley Wood."

The book so dedicated is an answer to Coin Financial School, illustrated by Frank Beard and published by A. B. Sherwood publishing Company, Chicago. It should have a wide circulation, as it is a complete and convincing answer to Coin's fallacies. Every chapter is introduced by a quotation from Coin, and the work is filled with facts and figures, that if carefully digested, will convince the most skeptical. The object of the book is to make good money voters. Correspond with the publishers as to methods, there is no expense attached.

The actual commercial value of silver is well illustrated at Brownsville, Texas, where nine-tenths of the circulating medium is Mexican dollars. The business men there borrow money on them, putting up two dollars for one. If a man wants \$5,000 he puts behind his note at the bank \$10,000 Mexican dollars. The Mexican dollar contains fifty grains more silver than the American dollar. What sort of legislation is necessary to make this Mexican money worth one hundred cents in Brownsville? Mr. Harvey will kindly make another cartoon and write an appendix to his book.

Kansas is rapidly being depopulated, and property is depreciating in value to an alarming extent. An opera house block in one town, costing \$40,000 was recently foreclosed on a \$6,000 mortgage, the highest bid for the property was \$3500 and this was hastily withdrawn when the bidder realized that he might be so unfortunate as to secure the property. Drouth and populists, assisted by Mrs. Lease have killed the state.

Confidence, capital worth more than gold or silver, is rapidly being restored, and the supply is already equaling the demand. Confidence represents more than 90 per cent of the nation's capital. The ratio is worth preserving.

The Green Bay Advocate becomes enthusiastic over "Progressive America" under democratic rule, and

claims that the markets of the world have been made accessible, and are already flooded with American goods. The editor is evidently a day dreamer. Read more, dream less, and stay by the truth. You have an intelligent constituency.

Rev. P. S. Hurlburt, the newly installed pastor of the Congregational church at Oak Park, was accused by the association of clergymen of being too humorous, and but for the demand of his church, his installation would have been refused.

A Twice Told Tale.

Is a miller's tale, the tale of the grist, as it were. Most people are satisfied with once telling; some millers tell twice and they are not satisfied.

Let us return to our "muttons" altho our tale is not the tail of a sheep.

We are making, these days, telling sales, how can we help it when we tell such prices.

We have today one nicely located six room house on large lot for \$950.

We have another still better located and in good repair, cistern, fine well and very large lot for \$1200.

We are about to complete an entirely new house very centrally located with cistern, well with force pump and is a complete home for \$1700.

We have almost three acres of land, right in the heart of fine improvements now going on, fair house, good barn, good well of water, cistern, fruit trees and shade, cheap at \$2,000, but we don't ask but \$1,500 and that is only \$100 more than we asked last week. New developments in the immediate vicinity would warrant us in asking \$250 more than last week's price.

Drive up to corner of Wheeler and Grove streets and notice our beautiful improvements there. It will remind you of the busiest day, three years ago in Riverview Park. We will build for you up there just such a house as you want and make easy terms.

East Riverview Park is coming to the front. Note the new house and barn corner of Cottage Place and Vista avenue, north. You can't find as good a one in this city for \$2,000. You can have this one for \$1,750. It is bargained for by a Chicago man but we can build him another.

Lots in East Riverview Park are "dog cheap" at \$500, but we only ask \$400 and give you free rides in our wagonette for a year besides. If you locate in East Riverview you will be right in the line of the best improvements in the city.

We have got a pair of lots centrally located for \$650 for the two. There are no others so central in Janesville for less than \$450 each.

In fact, we have gotten the earth, or a good portion of it, the best portion. Yours very truly,

Geo. L. & Sarah H. CARRINGTON.

PLENTY OF FINE CLAY HERE.

"Woodland" Company's Raw Material Pronounced of the Best.

EDITOR GAZETTE:—"Woodland" clay has been tested by an Iowa expert in clay products, and pronounced to be superior to any clay for tile yet discovered in the northwest. The manufacturing of tile in connection with high grade brick and common brick by the dry-press process, also white lime, rubble and building stone, will form a combination of products that this company propose to manufacture in any quantity that the trade demands.

While we possess an abundance of this raw material the city of Denver, Col., transports her material for brick two hundred miles by rail, and then converts it into brick, which enters largely into the construction of her buildings.

Bricks are the only fire proof building material yet discovered, and none other should be used within a city's limits. When made at home they are the cheapest material, but transportation from abroad adds to their cost, hence but few are used. Why not make bricks in Janesville?

STRIKE MAY END MONDAY MORNING

CONFERENCE AT FIVE O'CLOCK
THIS AFTERNOON.

One of The Employees Stated That
The Men Are Likely Go Back To
Work or Else Seek Other Em-
ployment—Small Scrimmage at the
Lower Mill.

The question as to whether the cotton factory employees will continue the strike or return to work Monday morning, will probably be settled this evening, and the indications are that the strike will be declared off and work resumed.

This information was caught by a Gazette reporter this afternoon in passing a group of factory employees who were engaged in discussing the situation. It was also learned that a meeting would be held this afternoon at the upper factory with a view of settling the differences, so the reporter hastened to the factory office and found Manager Heller.

"Yes, a meeting will be held at 5 o'clock this afternoon," said he. "Word came in this afternoon asking me if I would meet a committee and talk over the situation with a view of arriving at an understanding. I answered that I would, and named 5 o'clock this afternoon as the time. The meeting will be held in this office. I do not know who the committee are, but am ready to talk with any of them on this matter. I do not know how the help feel just now, but have heard it intimated that many of them were ready to go to work and are anxious to have the strike declared off."

Employees Say But Little.

The employees are very close-mouthed and give out information with much reluctance. However, one employee remarked that he thought the best thing to do now was to return to work, even at the old schedule of wages.

"I think this will be the result of the conference this afternoon with Mr. Heller," said he. "The help now understand that the factory company will not advance the wages as demanded, as they have had this repeated to them several times. The only thing to do under such circumstances is to go back to work, or look for employment somewhere else."

The first trouble of the strike came this morning. The hands who have returned to work were on their way to the lower mill, and when near the woolen mill they were met by a crowd of thirty-five or forty strikers or their sympathizers, who blocked their way and endeavored to dissuade them from going to work. James Sullivan, one of the employees who went back to work, tried to get through the line, and was grabbed by the other crowd. Quite a little scrimmage followed, and Sullivan's father and mother, who saw the whole affair, gathered up handfuls of stones and hastened to the assistance of their son. The crowd then dispersed, but there was considerable excitement about the vicinity over the jungle, and the police were notified of the occurrence.

ROCK COUNTY CYCLERS ELIGIBLE

with the M. W. A. Picnic.

Class B—Such races that have prizes exceeding \$50 in value, and open to any amateur rider, under class B definitions, according to L. A. W. rules. Riders are cautioned that to ride in class B races, or to violate any clause of class A, will make them ineligible to future events in class A.

Other events will be as follows, all in Class A: 1, 1-mile novice; 2, 1/2-mile open; 3, 1-mile tandem; 4, 2-mile handicap; 5, 1/2-mile open; 6, one mile triangle championship (open to Dane, Green and Rock counties); 7, 1-mile handicap; 8, 1-mile triangle team race; 9, 1-mile open. W. racing board and the L. A. W. rules.

THE GYPSIES BREAK CAMP AND GO. Police Advised a Change of Climate as a Good Thing.

The camp of the band of gypsies who have been making the Paul farm their headquarters for some days, was broken this morning. Their entire outfit consisted of a number of wagons and small tents, besides several horses and many different species of dogs. Their horses were allowed to roam anywhere, and residents of Spring Brook complained of this yesterday, and the police investigated the matter and advised the outfit to move on. There were three families in the party and they had twenty-seven head of horses ready to "swap" with anyone who was inclined to trade. Among the lot was one two-year-old mare with a colt by her side which is, according to an excellent authority, the only instance of the kind in veterinary history. The party have been in the vicinity of Janesville for the past two weeks and they calculate to make their next stop at Milwaukee.

MAY CHANGE THE CAMP DATES

Light Infantry Likely To Go Two Weeks
Earlier Than First Stated.

The subject of ordering the state militia into camp two weeks earlier than was announced is being considered by the state militia officers, and the change will very likely be made. If the dates stand as they now are, the cavalry and light artillery companies from the regular army can only remain at Camp Douglas a portion of the time, probably only while the Fourth regiment is in camp, whereas if the earlier dates are chosen, it is believed arrangements can be made whereby they can remain during the entire encampment. If the change is made, the Fourth regiment, Troop A and battery will be in camp July 7 to 13; Second regiment, July 14 to 20; Third regiment, July 21 to 27; First regiment, July 28 to August 3.

BUY BONES BY THE CARLOAD

Shipment Left the City Last Night for the
Chicago Market.

An odd shipment left the city last evening on the stock freight, it being a carload of bones gathered from local butchers by George Yahn, of the firm of Yahn Bros. The load consisted of hundreds of pounds of every description of bones, from the horns down to the hoofs of the "critter." The price paid in Chicago is from \$7.50 to \$8 a ton. These bones are eagerly sought for by a number of factories in Chicago, who make short work of turning bones into glue. The bones are also extensively used in the different sugar refineries.

FORTY OR FIFTY TO RUN SALOONS

Wet Goods Dealers Are Now Planning To
Have \$500 on July 1.

Janesville saloon men are now planning to raise five hundred dollars license fee, which has to be paid into the city treasury by July 1. A few of the present saloon keepers will go out of the business at that time, claiming their trade will not warrant them in paying the increased fee. However, it is claimed that while ten, possibly twelve, may retire, at least a dozen new saloons are likely to be opened, and that the number of applicants will be forty-eight or fifty.

HOW WILL THEY PAY BANK STOCK TAXES

DISCUSSION AS TO THE ASSES-
MENT OF THAT PROPERTY.

Some Insist That the Stock Should Be
Assessed To The Individual Owners
and Not To the Bank as a Whole
Which Would Affect the Ward
Funds Materially.

The manner of assessing bank stock is just now puzzling the city authorities, as a question varying somewhat from the usual rule has been raised. The assessors have been requested by interested parties or stockholders in at least one of the banks, to assess the stock to the individual holder, instead of to the bank. Heretofore the assessors have assessed the capital stock as a whole, directly to the bank, and this class of property has been placed to the credit of the ward wherein the bank is located. For instance, the First ward gets the benefit of the First National and the Merchants and Mechanics banks. The Second ward the Rock County National, and the Third ward, the Bower City bank, thus the capital or personal property list is very well distributed in different sections, for the purpose of more evenly dividing city taxes, especially relating towards funds. Should the individual stock holder of these wealthy institutions be assessed instead of the banks, it is claimed the great bulk of the bank stock assessable would go to the Third ward, while much of the remainder could not be reached, as stock is held in these institutions by non-residents.

"I don't believe the assessors will make the change," said City Treasurer Fathers this morning. "While some of the stockholders in the banks would like to have the individual holder assessed instead of the bank, there are many more who look at it differently. I had a talk with one this morning, who said it was better for the banks to have the assessors made to the banks, which would give the city the benefit of the full capital stock, no matter where or by whom held, as it would be assessed dollar for dollar. He claimed that, in case the individual holder was assessed, the city would get the benefit of the whole capital, as much of it is owned by non-residents; but, he claimed, that if the assessors were up in their work, they would assess the local holders of this stock for what it is worth in the market and not at its face value. In this case he claimed, the local holder would have to pay more tax on his stock than if it had been assessed to the bank, and the city would, in the end, gain nothing, for the reason that much of the stock could not be reached, owing to its being held by non-residents."

Treasurer Fathers then read the law in relation to assessing bank stock, and said he could not see that it was necessary under the law to change from the old rule.

"In fact," he continued, "I cannot see how the assessors can do otherwise than to assess all the stock to bank."

C. B. HUGHES, of McCool, Miss., was in the city yesterday, investigating Rock county overland mail routes.

SUMMER GOODS.

Checks and Plaids of Enormous Size.
Beautiful Pale Crepons.

Some of the new crepons are broadened with small sprigs in silk of the same or a contrasting color. Dots and stars are also seen in silk, scattered over the crinkled ground. Mohair promises to be very fashionable this season. It is pure wool, but so soft and fine that it is difficult to believe it has no silk in it. It is as glossy as spun silk, and though the grandmothers of the present day will remember it as a favorite dress material when they were girls they would hardly recognize it treated in the modern fashion with waterings, broadings and ended with shot effects.

Fancy and checked ribbons are being much used to trim hats, as well as plain ribbons, flowers and foliage. Stripes, checks and plaids have a decided vogue this season, both in ribbons and dress goods, but it is doubtful if American women will accept the extreme patterns and

SUMMER TOILET.

adopt the large check materials of silk and wool which Paris has taken up so enthusiastically. Some of the combinations and sizes of square are decidedly startling.

Very lightweight fine crepons are liked for delicate summer gowns and are to be found in all pale shades. There are few materials that have ever appeared in the variety of weights, weaves and colors through which crepon ranges. It makes charming tea gowns in the thin qualities, as it is so supple and clinging. Blue or pale yellow, with applications of cream gullure and frills of lace, is particularly pleasing.

Silk is as fashionable this season as it was last, and as it is exceedingly inexpensive in the light qualities nearly everybody can afford to have a taffeta gown for dress occasions during the summer. Trimmed with ribbons and a little lace, these costumes are as dainty as could be desired.

The illustration shows a toilet of willow green glaze taffeta. The skirt is cut in ten breadths and is entirely plain. The blouse bodice is of spangled white mousseline de sole. The bouffant sleeves are of mousseline finished with a folded frill of taffeta. A draped pelorine of taffeta is arranged over the shoulders and fastened with choux. The draped collar is of taffeta, while the narrow belt is embroidered with spangles.

KEEPING YOUNG.

Hints How to Avoid Wrinkles—Facial Expression Causes Them.

A recent writer for women inveighs against the habit of frowning, and with good reason. Many women take great pains to dress well and to keep their hands and hair in good condition, but pay no attention whatever to the expression of countenance they habitually wear. Where frowning is caused by defective sight it may be rectified by fitting the eyes with proper glasses, and neither eyeglasses nor spectacles are so disfiguring as a scowl. In many cases, however, frowning and other unbecoming habits of visage, such as keeping one eyebrow raised, drawing down the corners of the mouth, blinking and straining the eyes too wide open, are due to mere carelessness. Women's faces being more mobile than men's, these habits are more noticeable in women. The habitual muscular movements of the features produce characteristic wrinkles, so in time the habit of scowling will leave an in-

SLEEVES.

delible imprint of what looks like ill temper, while continual lifting of the brows causes horizontal wrinkles in the forehead that add ten years to a woman's appearance. Cultivate a pleasant expression of countenance as carefully as you attend to your hair or trim your nails and do not allow that pleasant expression to be banished by the first trifling annoyance or ill feeling you may have. It is not necessary to take the whole world into one's confidence when things are unsatisfactory, and by doing so one seldom gains the world's sympathy. The old and rather vulgar adage, "Grin and bear it," has a solid substratum of sense and policy. If you do grin while bearing it, you will be more popular, prettier and will keep younger longer than if you allow every little worry to leave its imprint on your features, and we all want to be young and pretty as long as possible for our own sake and the sake of those we love and who love us.

A sketch is given of two of the newest and most fashionable sleeves Paris has produced.

JUDIC CHOLLET.

Mrs. and Mr. Grote.

In Mrs. Grote nature had combined a very kind heart with the most masculine vigor of mind and body, and, I might add, occasionally of expression. After Mr. Grote's death she came to see my father and said, "It is perhaps just as well that he is gone first, as I shall be able to write his life."

The "popular" edition of the "History of Greece" was brought out at a time when the early strikes had somewhat disturbed the printing trade in England, and this work was printed as an experiment in Germany. Its appearance was not all that could be desired, and it has now for some time been superseded. This edition was always called by Mrs. Grote "my scruffy edition."—John Murray in Good Words.

He Could Stand It.

A church organization in Maine intending to give a performance of some oratorio were a little alarmed about the cost of the thing. Accordingly the director of the chorus suggested to the leader of the orchestra that had been engaged: "We've got to keep our expenses down and I thought we might get you to leave out the trombones. You know they have only four measures in the entire oratorio, and if we leave them out we can save at least twenty-five dollars and no one would be the wiser."

The leader of the orchestra assumed a tragic attitude and answered: "That would be an insult to the composer."

Thereupon the chorus director observed: "O, never mind him; he's dead."—Washington Star.

Where Prejudice Lay.

An old negro being on trial, his lawyer challenged a number of the jury who, his client said, had a prejudice against him.

"Are there any more jurors who have a prejudice against you?" inquired the lawyer. "No, sah, de jury am all right, but I want to challenge de judge."—The Green Bag.

Somewhat Exaggerated.

Rev. John Smith—You were at church last Sunday, Mr. Amsterdam. Pete Amsterdam—Yes, and I was carried away completely by your sermon. I never heard anything more eloquent in my life. I have been saying to all my friends that there is only one John Smith in the world.—Texas Sittings.

CURES OTHERS.

Mrs. WILLIAM ROBERTS, Bridgeport, N. Y., writes: "If I had not taken your medicine, I would not be here now. The doctors did me no good, I was just a mere skeleton, could not eat, I would have awful pain in my stomach—pain in my side, bowels and chest; soreness in my back and womb; was weak, nervous, and could not sleep."

After I took your 'Favorite Prescription' and 'Golden Medical Discovery,' I commenced to improve. In two weeks could walk about the house—could eat—did not have any more pain in my stomach—threw away my morphia powders. When I first commenced taking the medicine it made me feel worse. I was hoarse, could not speak about for three days; as I got better my pains and bad feelings left me and I could sleep good; my nerves got better. Before I took your medicine I kept trying for four months—got worse all the while. I am now quite fleshy and can work all day."

PAINT cracks.—It

often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure white lead, ground in pure linseed oil.

SHOULD GET RICH.

In the Past

A good many jokes have been elaborated—at the expense of druggist—on account of his supposed large profits. The above little clipping from the great New York Herald may be taken as an indication that the press and the public are beginning to see the question in another light. We could write volumes on the subject, but perhaps you would not wade through them. This, however we will assert here:—The drug store is the proper place to get anything in the drug line, and we can prove that our prices are as low and our goods as good as anywhere else in town. And we do not try to prove this by advertising "draws" at cost; and under, with some article from somebody else's line of business. Here are two of our own lines suitable for present moments.

ALL FAMILIES WANT THE GAZETTE PRIZE

BABY CONTEST IS GETTING
VERY SPIRITED.

Five Hundred Dollars Worth of Building and Loan Association Stock is a Nice Nest Egg For a Three Year Old and the Vote Between Several Contestants is Very Close.

The time is not far distant now, when some Janesville baby will get The Gazette's \$500 prize. The ballot closes June 1, and then the prize will be awarded. Five hundred dollars is a nice sum for a baby to begin life with. Put it out at interest and when the babe becomes the man or woman, enough cash for a start in life is available.

Do not think that you can sit down and wait for that \$500 to come to your home. The ballots are piling up rapidly, for, naturally enough, \$500 is enough to encourage every father and mother in Janesville to strive for that prize for their "ownest own." Competition is getting strong as the time begins to narrow down and in this case the old adage, "everything comes to he who waits" is far from true. It should be "everything comes to he who hustles." The Gazette has been asked many times to publish the vote as it stands, but this would not be fair. It would tell Brown that Jones was leading him, and The Gazette wishes to treat all hands alike. However, the count is close between several contestants up to date, and, like everything else, the "early bird," etc., applies.

The Gazette's offer is this: The baby receiving the highest number of votes will be presented with \$500 worth of stock in the Rock County Building, Loan & Savings Association.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.
Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened on May 1st and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Out the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the count will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to out coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

MONEY MADE AT HOME.

Last month I cleared, after paying all expenses, \$235.38; the month before \$183.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

Reversible.

"Sir," said a Heidelberg student to a night watchman, in the wee sma' hours of the morning, "sir, I would like to ask you a question."

"Go ahead, young man," answered the dignitary; "that is what I am here for."

"Well, sir, does the law permit me to call a policeman an ass?"

"You had better be gone immediately, or I will lock you up."

The votary of Alma Mater advanced a few steps on his way home, but returned and asked humbly:

"But, sir, is it permitted to call an ass a policeman?"

"The law doesn't say anything about that, young man."

"It doesn't, eh? Well, good morning, Mr. Policeman."—Amusing Journal.

A Prince Among Flatterers.

Jollyer—Yes, Miss Lightfoot, you are a wonderful dancer!

Miss Lightfoot—Do you think so?

Jollyer—More wonderful than the damsel who danced before Herod and demanded the head of John the Baptist.

Miss Lightfoot—How so, pray?

Jollyer—When she danced, one man was decapitated, but when you dance all men lose their heads.—Truth.

Of the Same Mind.

Little Brother (in awful whisper)—Say, pop, I just peeped into the parlor, and sister Mary was sitting on the music stool before the piano, and her young man was kneeling down in front of her and holding her hands.

Father—By jingo! I always did say that was a sensible young man, mother. I guess he don't like to hear her play the piano any more than I do.—Puck.

Story of a Stone.

Here is a Russian story: A young widow put up a costly monument to her late husband and inscribed upon it: "My grief is so great that I cannot bear it." A year or so later, however, she married again and feeling a little awkwardness about the inscription she solved the difficulty by adding one word to it, "alone."—The Gentleman.

A Sure Way.

He advertised a brand new scheme, "How to make your trousers last." For fifty cents he'd tell the plan. Demands came thick and fast. And this reply he promptly sent, "Twas but a cruel jest. The postal card bore but one line—'Make first your coat and vest.'"

THE TOWN TALK OF A DAY.

NEVER have had a person come back to us yet and say "that buggy I bought from you was not all right. It was not up to standard in such and such a place." We have no such kicks, but the person who once buys, brings some one else and then we make another sale. Wisconsin Carriage Top Co.

If we wanted to go into the cheap buggy business we could probably increase our sales to 12,000 buggies a year, but we prefer to make the best buggies and increase gradually. There never was such a demand for good buggies, as since those cheap ones have come into the market. Wisconsin Carriage Top Co.

In our notice of Joe Loeb, manager of the meat market at 3 South Franklin street, we said Joe had been in the butcher business 14 years when it should have been 30 years. Joe has lived in Janesville 14 years, and has been a butcher all the time.

THE steady tirade we are making on groceries is bringing us lots of extra business. Tomorrow we will publicly name something that will bring you all here Saturday. Nolan Bros.

TOMORROW and Saturday we will place on sale men's and women's shoes that retail regularly at \$3, \$4 and \$5 at from \$1 to \$2.50. They are the best makes in the world and the price we will sell them at is away below value. Becker & Woodruff.

THERE's no use trying to imitate them—can't be done, as there's but one recipe of the kind in the country and we have it. Paid a small fortune for it, but it's doubled our fried cake trade. Grubb Bros.

OUR wagon don't need a "chromo." Neither does our driver. We do put "chromos" on our work, though. That's why we have 14 persons in our employ. Janesville Steam Laundry.

A LOAD of hay collided with Frank Fife's lumber team this morning and broke a wheel but no other damage resulted.

ON tomorrow and Saturday a make sale of tan goods. We have to money so will make a sacrifice. Lloyd & Son.

WE'LL have something for you tomorrow that will bring you to our store Saturday. Watch out. Nolan Bros.

JUST examine our coal and compare it with whisks on, and see the difference in quality. Janesville Coal Co.

ALL these "chromos" we have are on our work; the wagon don't need them. Janesville Steam Laundry.

PLENTY of bicycles are now at Sheldons, \$50, 65, 75, 85 and \$100. No better wheels made.

WE have a nice looking gent's dress shoe that we are selling at \$1. Lloyd & Son.

FRIDAY morning we'll open an art gallery of a choice line of large, sue

pictures. Come in and see the finest finest pictures and beautiful frames. Remember, your choice of this line only \$1. Not a picture worth less than \$4.50. Our prices \$1. Winslow & Lowell.

No use trying, we can't make the buggies any better. We have tried every conceivable way to get them better but it seems as if we had reached the top, and there isn't any thing better to put in them, that means they are the best and we really think so, and believe you will when you compare. Carriage Top Co.

WILL receive today the handsomest line of ladies tan shoes made at the celebrated factory of F. M. Marzluff; also will receive every day a line of Marzluff fine shoes until we have our first order of 1,500 at prices never heard of before, only \$2.00 a pair. Winslow & Lowell.

If you want the finest shoe in the city come to the Midway shoe store for you can buy the finest shoe for ladies. Our price is only \$2.00, choice of any ladies' shoe. Winslow & Lowell.

THAT Superlative flour has no equal; we, fortunately handle it, every sack recommended, but that's not necessary as it recommends itself. Nolan Bros.
